

**U.S. Army Corps of Engineers  
Civil Works Program - Active Studies  
October 2025**

This table provides a list of active feasibility studies underway within the U.S. Army Corps of Engineers Civil Works Program. It is provided in partial response to Section 1005 of the Water Resources Reform and Development Act of 2014 and Section 2045(b)(3) of the Water Resources Development Act of 2007, as amended. Ongoing studies are presented in alphabetical order by the official name of the study. Additional details are provided including the type of study, the business line, and the Division and District responsible for the study. The state where the study/project is located is also identified along with the date when the study was initiated. A list of abbreviations is provided after the table. This information may be updated for future responses to the statutory provisions. This list of active studies is not intended for use in project or program budget requests.
